Honorable Mariannette Miller-Meeks
1716 Longworth House Office Building
Washington, DC 20515

Dear Representative Miller-Meeks,

I am writing to you on behalf of the membership of Bring Our Troops Home and countless veterans and their supporters who want an immediate end to the cycle of endless war and an interventionist foreign policy. As such, we believe it is vital that Representative Liz Cheney of Wyoming be removed from all positions of leadership in the House Republican Caucus.

Representative Cheney is the chief booster for the military-industrial complex that has doomed America into a series of needless and destructive wars. The damage inflicted on countless American families and the devastation imposed on peoples and communities throughout the world is wrong. The cycle of war for profit and to advance the globalist agenda must come to an end. Removing Cheney from any position of leadership is a good start.

And, while removing Cheney is essential, ending her influence bought with the blood of American military personnel must also come to an end. To that end, I call on you to return the \$2500 you have taken from Cheney's so-called "Cowboy PAC." It is not enough to oppose the endless wars out of one side of your mouth while taking money from the war-advocate cabal on the other.

We stand ready to inform the citizens of your district on your decision. I strongly urge you to announce your intent to vote to remove Cheney for the Conference Chair position of the GOP House Conference and to return the blood-money to her PAC. I know they will appreciate the move. Well over 70% of American citizens support ending the cycle of endless war and support removing US. Military personnel from the Middle East war zones. They certainly oppose getting involved in new conflicts. Please do the right thing, remove Cheney and return the blood-soaked money.

Sincerely,
